Net interest income evolution analysis

In a scenario of faster rates decrease in 2024, upside from:

- better time deposit mix
- lower debt issuance costs
- NMD hedges

would mitigate the downside for reduced loan income

Note: interest rate hedging impact is included under NMD hedges, which corresponds to €10bn IRS executed during Q4.23 and Q1.24 to hedge part of the Group's non-maturing deposits book

Enriching our transformation program pillars with new initiatives and introducing 2 new strategic themes

Business Plan 2024-2026

03

New strategic themes

Transformation program shifts into innovation pathways; to raise aspiration bar and leapfrog competition

1 Customer journey center of excellence

Establishing a CX Centre of excellence

- Map all customer journeys
- Redesign of selected journeys
- Measure NPS per journey

Excel in Net Promoter Score

2 Embedded finance

Expand alternative channels & develop ecosystems

- New commercial agreements with strategic partners
- Capitalize on ecosystem dynamics seeking sustainable growth

Expand customer reach and generate non-banking revenues

3 Fostering innovation

Establishing an innovation framework

- Develop an innovation strategy & culture
- Innovation mechanisms to capture new opportunities

Develop innovation capabilities to remain relevant and ahead of the market

The Company does not guarantee the accuracy or completeness of such information. All projections, valuations and statistical analyses are provided for information purposes only. They may be based on subjective assessments and assumptions and may use one among alternative methodologies that produce different results and to the extent they are based on historical information, they should not be relied upon as an accurate prediction of future performance.

The Company/Group, its financial and other advisors, and their respective directors, officers, employees, agents, and representatives expressly disclaim any and all liability which may arise from this presentation and any errors contained herein and/or omissions therefrom or from any use of this presentation or its contents or otherwise in connection therewith, and accept no liability for any loss howsoever arising, directly or indirectly, from any use of the information in this presentation or in connection therewith. Neither the Company/Group nor any other person gives any undertaking, or is under any obligation, to update any of the information contained in this presentation, including forward-looking statements, for events or circumstances that occur subsequent to the date of this presentation. Each recipient acknowledges that neither it nor the Company/Group intends that the Company act or be responsible as a fiduciary to such attendee or recipient, its management, stockholders, creditors or any other person, and that it expressly disclaims any fiduciary relationship and agrees that is responsible for making its own independent judgment with respect to the Company/Group and any other matters regarding this document.

Confidentiality

For the purposes of this disclaimer, this presentation shall mean and include materials, including and together with any oral commentary or presentation and any question-and-answer session. By attending a meeting at which the presentation is made, or otherwise viewing or accessing the presentation, whether live or recorded, you will be deemed to have agreed to the present terms, conditions and restrictions and acknowledged that you understand the legal and regulatory sanctions attached to the misuse, disclosure or improper circulation of the presentation or any information contained herein. You also acknowledge that, if electronically transmitted and delivered, the presentation is confidential and intended only for you, and you agree that you will not forward, copy, download or publish the electronic transmission or the presentation to any other person.

Forward-looking statements and financial projections

Certain information or statements contained in this presentation or made in any meetings that are not statements of historical fact, including, without limitation, any statements preceded by, followed by or including words or phrases such as “targets,” “believes,” “expects,” “aims,” “intends,” “may,” “anticipates,” “would,” “could,” “will,” “might,” “potential,” “plan,” “is designed to” or similar expressions or the negative thereof, constitute forward-looking statements, notwithstanding that such statements are not specifically identified.

Examples of forward-looking statements may include, among other things, statements relating to the Company/Group’s strategies, plans, objectives, initiatives and targets, its businesses, outlook, political, economic or other conditions in Greece or elsewhere, the Company/Group’s financial condition, results of operations, liquidity, capital resources and capital expenditures and development of markets and anticipated cost savings and synergies, as well as the intention and beliefs of the Company/Group and/or its management or directors concerning the foregoing. Forward-looking statements and financial projections are not guarantees of future performance and involve numerous known and unknown risks, uncertainties, both generic and specific, and assumptions which are difficult to predict and outside of the control of the Company/Group.

We have based these assumptions on information currently available to us at the date the statements are made, and if any one or more of these assumptions turn out to be incorrect, actual outcomes and results may differ materially from what is expressed in such forward-looking statements. While we do not know what impact any such differences may have on our business, if there are such differences, our future results of operations and financial condition, could be materially adversely affected. Therefore, you should not place undue reliance on these forward-looking statements and financial projections.

This presentation also includes certain forward-looking business and financial targets. The targets have been prepared by management in good faith, on the basis of certain assumptions which management believes are reasonable. However, there can be no assurance that the facts on which the assumptions are based will not change and, consequently, our ability to achieve these targets may be affected by a number of changes and risks, which are beyond our control and some of which could have an immediate impact on our earnings and/or financial position. No representation is made as to the reasonableness of the assumptions made in this presentation or the accuracy or completeness of any modelling, scenario analysis or back-testing. We do not undertake any obligation to update these targets and we reserve the right to change our targets from time to time as we respond to real operating, financial and other macro-economic conditions.

The Company/Group has included certain non-IFRS financial measures in this presentation. These measurements may not be comparable to those of other companies. Reference to these non-IFRS financial measures should be considered in addition to IFRS financial measures but should not be considered a substitute for results that are presented in accordance with IFRS.
